## Introducing Club Insure

Like you, we're passionate about what we do. And by putting our customer at the heart of everything we do, we're confident we're the best option in your search for a new insurance broker.

We're used to working with some of the best golf clubs across the UK, meaning we understand your club, the risks it might face, and most importantly how to protect you against them.

It's because of this experience that we believe we're best placed to protect you. Not only because we're able to deliver the best cover at a competitive premium. But because we can form a true partnership and bond, working closely alongside you, not just for you.

Golf clubs are unique. Their place in our culture & history is unparalleled, and it's important to us that they're properly protected. That's why we've hand-picked an award-winning team with a true passion and understanding for golf clubs, ensuring the service and cover you receive is second to none.

## 27 years' protecting the country's best clubs

The unique nature of what makes golf clubs so special, mean they deserve unique policies designed around them.

Our extensive experience in protecting some of the country's greatest clubs, means we've seen every risk you might face, and how to protect you against it. What's more, we've worked with leading, A-rated insurers, to provide a golf club insurance policy with covers designed for your unique requirements.

## Our promise to your club

We're proudly committed to delivering exceptional service for our clients, and have developed a unique golf club insurance product offering market-leading protection. We always have your club's best interests at heart, not those of shareholders or network members.

What's more, as the UK's largest sports & social club insurance broker, we've got the scale and strength to compete with any other broker, whilst still being able to offer first-class, personal and face to face service to every client.

Our commitment to you is that we will:

- Only provide products from UK based insurance providers that can offer a suitable, and independently verified, financial credit rating.
- Put in place a mutually acceptable service level agreement which we will adhere to.
- Ensure clients are kept updated on developments in both insurance and risk management markets.
- Ensure that claims are dealt with efficiently, in-house, with a view to minimising the effect on the day to day running of your business.
- Provide key advice and guidance on how to assess your levels of insurance covers.
- Give you access to a range of complementary services at discounted rates.

# While other insurance brokers make bold claims, we're busy sorting them out.

---

Since our establishment in 1997, we have made our claims and risk management services key priorities for our business, to ensure we deliver industry leading service for our customers.

By recruiting top quality staff from insurers and loss adjusters and providing them with a challenging and rewarding environment, we're able to offer you the very best service. Making sure that when something goes wrong, you've got the best team on your side, fighting your corner.

We add value to every claim. However big. However small. We will never behave like a 'post-box', simply passing your claim on to the insurer and leaving you to deal direct with no support.

We don't get complacent. We don't let our standards drop.

**We pride ourselves on being the very best for you and won't settle for anything less.**

During his visitation, he was balanced in his opinion, gave straightforward advice, and ultimately we felt his time with us added value. They didn't over promise or under deliver; they gave us the honest truth.*
